

# Snipe & Buy & Sell Tokens Like a Pro with TON Sniper Bot

## FEATURES

### BUY & SELL

With TON Sniper Bot's user-friendly interface, you can buy and sell your tokens on the TON Network with ease and lightning-fast speed.

No more worrying about slow and laggy DEXes—your transactions are sent directly to the blockchain.

Trading on the TON Network has never been this simple!

### SNIPE TOKENS

TON Sniper Bot is proud to be the fastest and most secure sniping tool on the TON Network.

Be the first to grab tokens within seconds of their launch, ahead of everyone else.

Our solution is tailored to meet the needs of everyone, from crypto beginners to seasoned traders.

### REFER & EARN

TON Sniper Bot offers an exciting referral program where you can earn by inviting friends and colleagues to join the platform.

By sharing your unique referral link, you'll earn a share of the fees generated by users you refer.

This creates a rewarding opportunity to generate passive income while growing the TON Sniper community.

## HOW TO USE

Using TON Sniper Bot is simple and straightforward, designed to help both beginners and experienced crypto traders. Follow this detailed step-by-step guide to get started:

### 1. Sign Up and Create an Account

Visit the official TON Sniper Bot website or app.

Click on the “Sign Up” button and enter your email address, create a strong password, and complete any necessary verification steps.

Once your account is verified, you can log in and access the dashboard.

### 2. Connect Your Wallet

Navigate to the “Wallet” section on the dashboard.

TON Sniper Bot supports a range of popular wallets. Choose your wallet provider and connect securely using the on-screen instructions.

Ensure your wallet has sufficient funds and the necessary network tokens to cover transaction fees.

### 3. Buy & Sell Tokens

Use the “Buy & Sell” feature to trade tokens effortlessly.

Select the token you want to buy or sell from the list or search bar.

Enter the amount you wish to trade and confirm the transaction.

TON Sniper Bot processes the transaction directly on the blockchain for lightning-fast and secure execution.

#### **4. Snipe Tokens on Launch**

TON Sniper Bot specializes in token sniping. To get started:

Go to the “Snipe Tokens” section.

Enter the contract address of the token you want to snipe (make sure it’s verified).

Set your preferences, such as slippage tolerance and maximum transaction amount.

Click “Snipe” and let the bot handle the rest—securing the token within seconds of its launch.

This feature is ideal for staying ahead of the competition in the fast-moving crypto world.

#### **5. Refer & Earn**

Leverage the “Refer & Earn” program to generate passive income:

Navigate to the “Referral” section to find your unique referral link.

Share this link with friends, colleagues, or on social media.

Earn a portion of the transaction fees generated by the users you refer.

The more users you bring to the platform, the higher your rewards.

#### **6. Monitor Your Transactions and Performance**

Use the “Dashboard” to track all your transactions, referral earnings, and trading activity.

The real-time analytics and performance metrics allow you to make informed trading decisions.

Set alerts to get notifications for token launches or price changes.

## **7. Stay Updated**

TON Sniper Bot is constantly improving and adding new features.

Keep an eye on the “Updates” section to learn about new functionalities or enhancements.

Join the TON Sniper Bot community on Telegram, Discord, or other social media platforms to stay connected with other traders and get the latest news.

## **8. Security Tips**

Always double-check token contract addresses before sniping to avoid scams.

Ensure your wallet’s private keys are secure and never share them with anyone.

Enable two-factor authentication (2FA) on your TON Sniper Bot account for an extra layer of security.

## **FAQs**

Find answers to your questions about trading with our bot. Explore common inquiries and enhance your trading experience.

### **1. What is TON Sniper Bot?**

TON Sniper Bot is a powerful and user-friendly tool designed to simplify trading on the TON Network. It enables users to buy and sell tokens, snipe new token launches, and earn rewards through a referral program. Whether you are a beginner or an experienced trader, TON Sniper Bot offers advanced features to help you stay ahead in the dynamic crypto market.

## **2. How do I get started with TON Sniper Bot?**

Getting started is easy:

Sign up for an account on the TON Sniper Bot website or app.

Connect your wallet securely to the platform.

Explore features like Buy & Sell, Snipe Tokens, and Refer & Earn to make the most of the platform.

You can find a detailed step-by-step guide in the How to Use section of the website.

## **3. What is token sniping, and how does it work?**

Token sniping refers to the process of buying tokens immediately after they are launched, often before the wider market has access.

With TON Sniper Bot:

Enter the verified contract address of the token you wish to snipe.

Set your preferences, such as the amount to buy and slippage tolerance.

TON Sniper Bot automatically executes the purchase within seconds of the token launch, giving you a competitive advantage.

## **4. Is TON Sniper Bot secure?**

Yes, TON Sniper Bot prioritizes user security through the following measures:

Transactions are directly processed on the blockchain, eliminating third-party risks.

The platform supports wallet integrations without storing your private keys.

Two-factor authentication (2FA) is available to protect your account.

Always ensure that you double-check token contract addresses to avoid scams or fraudulent tokens.

### **5. Can I use TON Sniper Bot on my mobile device?**

Yes, TON Sniper Bot is accessible via both desktop and mobile devices. The web interface is optimized for mobile browsers, ensuring you can trade or snipe tokens on the go. Additionally, mobile app development is underway to further enhance the user experience.

### **6. What fees does TON Sniper Bot charge?**

TON Sniper Bot charges a small transaction fee for its services, which is deducted from your trades. The exact fees depend on the type of transaction (e.g., token sniping or regular buying/selling). Additionally, network fees may apply based on the TON blockchain.

### **7. How does the referral program work?**

The Refer & Earn program allows you to generate passive income by inviting others to use TON Sniper Bot:

Share your unique referral link with friends, colleagues, or on social media.

Earn a percentage of the transaction fees generated by users you refer.

The more referrals you make, the higher your earnings grow.

You can monitor your referral activity and earnings through the dashboard.

## **8. What is slippage tolerance, and why is it important?**

Slippage tolerance is the acceptable difference between the expected price of a token and the actual price at which the trade executes. It is especially important for sniping tokens as prices can change rapidly during a launch.

TON Sniper Bot allows you to set slippage tolerance to avoid failed transactions.

A higher tolerance increases the chance of successful transactions but may lead to a slightly higher price.

## **9. Do I need technical knowledge to use TON Sniper Bot?**

Not at all! TON Sniper Bot is designed to be beginner-friendly while offering advanced features for experienced users. The intuitive interface and clear instructions make it easy for anyone to navigate and use the platform effectively.

## **10. What wallets are compatible with TON Sniper Bot?**

TON Sniper Bot supports popular wallets that integrate with the TON Network, including:

Tonkeeper

Tonhub

Ledger (via TON blockchain integration)

You can securely connect your wallet to the platform and start trading immediately.

## **11. Can I snipe multiple tokens at once?**

Yes, TON Sniper Bot allows you to queue multiple token sniping transactions simultaneously. This is ideal for users who want to maximize their opportunities during multiple token launches happening around the same time.

## **12. What happens if my sniping transaction fails?**

In rare cases, a sniping transaction might fail due to:

- Insufficient funds in your wallet.

- Incorrect contract address.

- High network congestion.

TON Sniper Bot ensures that any failed transaction does not deduct funds unnecessarily. You can adjust your settings (e.g., increase slippage tolerance) and try again.

## **13. How can I track my trading activity and earnings?**

The Dashboard provides a comprehensive overview of:

- Your transaction history (buy, sell, and snipe).

- Referral earnings and activity.

- Real-time performance analytics to help you make informed decisions.

## **14. Does TON Sniper Bot support other blockchains?**

Currently, TON Sniper Bot is exclusively designed for the TON Network. However, future updates may include support for additional blockchains based on user demand.

#### **15. What should I do if I encounter an issue?**

If you experience any issues while using TON Sniper Bot:

Visit the Help Center for detailed guides and troubleshooting tips.

Contact the Support Team via live chat or email.

Join the community on Telegram or Discord to get advice from other users and stay updated on platform developments.

#### **16. Are there any risks involved in using TON Sniper Bot?**

As with any crypto trading tool, there are risks, including:

Market volatility, which can cause token prices to fluctuate rapidly.

Scams or fraudulent tokens if you enter unverified contract addresses.

Always do your research and use caution while trading. TON Sniper Bot provides the tools to trade safely but cannot guarantee market outcomes.

#### **17. Is there a minimum amount required to trade or snipe?**

There is no strict minimum; however, ensure you have enough funds to cover the token purchase amount and associated fees (both platform and network fees).

#### **18. How often is TON Sniper Bot updated?**

The platform is continuously improved with new features, performance enhancements, and security updates. Keep an eye on the Updates section or subscribe to the newsletter to stay informed about the latest changes.
